

The Parable....Step by Step

I Accept all issues of disharmony in my Life and move forward with my Inner Holiness~

- We Accept our Issues, for "we are part of the problem or it wouldn't be in our Life". This is our most *empowering* and healing choice, rather than victimizing *ourselves* through blame.

We happen to Life, just as Life happens within and around us~

We Accept the results of our Participation with Creation, accepting every step and choice of our Life, arriving at this moment where we are now.

- Acceptance connects us to the Reconciliation and Healing Capacities of our 100% Conscious Inner Holiness..no longer a prisoner of the past, fear, linear cause/effect or negativity. *Choosing* Positive Emotional Spiritual Energy propels us with our *own* Inner Love & Wisdom.

I Forgive myself for all negative experiences~

- We compassionately Forgive *ourselves* for all negative experiences and harm our issue has caused, to ourselves and to others.
- We Forgive ourselves for any negative feelings, expressions, beliefs, reactions or projections we may harbor about the issue or problem.
- We Forgive ourselves for identifying with human density, conditioning, beliefs and fears.
- *We Forgive ourselves for the times we didn't Trust our Inner Holiness to Guide our Life.*
- Forgiving *ourselves* for the problem, situation or issue releases the harm & negativity of withholding Love & Grace to ourselves & others.
Forgiving ourselves liberates...heals...empowers~

I Surrender all my aspects of my Life to my Inner Holiness: my actions, plans, issues, fears, problems, agendas, worries, etc.

- In Surrendering our issues and plans to our Inner Holiness, we 'give up' the most limiting, stressful & "greatest of all human compulsions" which is trying to figure it out through 'self': the 10% Conscious Ego of the Fragmented Soul operating through belief and programming.
- We Surrender the fragmentation, fears, density of the human condition that *create* problems.
- Surrender is a deeply *peaceful* Strength when we consistently live the Parable and recruit the 100% Knowing Consciousness of our Inner Holiness to lead, manage and heal our Life.

I Yield to the Divine Will of my Inner Holiness within me and my Life~

- Yielding to your Divine Will is a *decisive* moment in Living the Parable....and may require a deliberate *Pause*...to allow a *different* 'thought' or 'feeling' to come forth in its fullness. As humans we accumulate conditioned and reflexive patterns, beliefs and habits which limit potential and 'edit' our Inner Holiness.
- **"The Action of the Knowing of our Inner Holiness consumes all reactions/beliefs/fears of the Fragmented Soul's 10% Conscious Ego."**
- Divine Will provides Goodness for All; Free Will does not operate from Pure intention and navigates to benefit its own beliefs & agendas. Divine Will breeds no harm or negativity~
- When we Yield to the Divine Will of our *own* Inner Holiness, we adjust our bearing to Integrity, Honor and High Regard *with and for* All That Is...and Trusting *that...is easy* to Trust~!

I Trust my Inner Holiness without knowing what's next~

- Trusting our Inner Holiness is *the* vehicle to Knowing...without evidence, controlling, certainty or understanding through the mind.
- Trusting may take some practice to wean ourselves from patterns, concepts, beliefs and residues from past experiments with Trust.
- What is *essential* is "showing up every day and taking your next step in Trusting your Inner Holiness". Trusting *ourselves* into its Divine Love, Will, Action and Care creates possibilities beyond limitations~!

I ask my Inner Holiness for Guidance: Please show me the way~

- "The greatest of all human compulsions is trying to figure it out through Self." Einstein observed '*The same mind that created the problem cannot solve it*'.
- By living the Parable, we allow our 100 % Conscious Inner Holiness to come forth to 'solve the problem'...and Guide us in choices that won't *become* one. Attuning to our Inner Wisdom may require a *Pause*....and a deep breath....to Yield and learn the *Feeling* of Awareness as you nurture this connection.
- When you do, you relieve yourself of the anxieties and limitations of 10% Conscious analysis, fear, evidence gathering, negativity.
- We then learn to Trust the Knowing of our Inner Holiness....that in *its* Love, Care and Wisdom we are always Divinely Guided, Connected & Protected~!
